

# Handbook of Anatomy

for Exam Preparation

MBBS, BHMS, BAMS, BSc (Nursing), BPT, BSc (MLT), B Pharm/D Pharm

## Salient features of the Handbook

- Enriched with long answer questions
- Short answer questions
- Histology
- Surface anatomy
- Radiology
- Chapter on dissection described according to the steps of dissection
- Text on embryology includes congenital anomalies
- Brain, spinal cord and cranial nerves described according to the students' needs with original dissected parts
- Short answers given also to cover *viva voce* examination
- Clinical anatomy included with all topics

**BD Ghosh** DMS, Dip NIH, MD (Homeo)

is Professor, Department of Anatomy, Dr Yadubir Sinha Homoeopathic Medical College and Hospital, Laheriasarai, Darbhanga. He is a member of the Anatomical Society of India (WB), examiner of Government of West Bengal and Maharashtra University of Health Sciences (MUHS), Nashik, Maharashtra, India. He has delivered lectures on anatomy at different colleges and also attended several seminars on anatomy all over the India.

Having a long teaching experience of over 33 years, he has written many books such as *An Approach to Human Anatomy*, *Advanced Anatomy* and *Human Anatomy for Students*.

## PREFACE

All my beloved students, as a teacher of anatomy through long time observation in different colleges all over India, I have realized that it is the time to simplify the subject 'Anatomy'. To do the needful for every undergraduate and postgraduate student of various universities of anatomy faculty, I have made it time-saving for both theoretical and practical examination and also viva purpose.

Though this book is not a textbook, it is enriched with long answer questions, short notes, short answers and questions, explanatory answers, also histology, surface anatomy, radiology, dissection (with diagrams), embryology, brain and spinal cord and cranial nerves according to my realization of the student's needful.

Anatomical knowledge has been elaborated in all chapters of this book. This book is very much important and precious to every medical student or professional.

The entire approach of all chapters fulfils all requirements including line diagrams and original dissected diagrams. Simultaneously it will help a teacher to represent the complete anatomy to the students in a lucid, comprehensive and palatable manner.

My special thanks to my technical editors Ananya Roy, Sankho Mukherjee, Kazi Sayeed and Subhranil Mandal.

I believe that my devotion and love for anatomy will surely satisfy all anatomy readers.

**BD Ghosh**
