LONG CASES

Hip

1. A systematic approach to hip examination	3
2. Primary osteoarthritis of the hip	43
3. Secondary degenerative arthritis of the hip	50
4. Post-traumatic secondary degenerative arthritis of the hip with nonunion fracture neck of femur	52
5. Post-traumatic secondary degenerative arthritis of the hip with malunited trochanteric fracture	58
6. Post-traumatic secondary degenerative arthritis of the hip with untreated dislocation of hip joint	62
7. Secondary degenerative arthritis of hip due to post-septic sequelae	67
8. Secondary degenerative arthritis of hip due to tuberculosis of the hip joint	72
9. Secondary degenerative arthritis of hip due to inflammatory pathology (rheumatoid arthritis)	77
10. Secondary degenerative arthritis of hip due to ankylosing spondylitis (Bechterew's or Marie-Strumpell disease)	82
11. Secondary degenerative arthritis of hip due to avascular necrosis	87
12. Developmental dysplasia of the Hip	94
13. Perthes' disease	104
14. Slipped capital femoral epiphysis (SCFE)	116
15. Coxa vara	126
16. Post-septic sequelae of the hip	134

Spine

17. A brief overview of clinical examination of the spine	144
18. Lumbar intervertebral disc prolapse	151
19. Spondylodiscitis including tuberculosis spine	160
20. Spondylolisthesis	168

Nerve Injury

21. Evaluation of adult brachial plexus injury 175

SHORT CASES**Neurological Causes**

- A systematic approach to peripheral nerve injuries 197
22. Ulnar clawhand 211
23. Median nerve palsy 222
24. Radial nerve palsy (wristdrop) 239
25. Common peroneal/sciatic nerve palsy with footdrop 248
26. Cerebral palsy 259
27. Post-polio residual paralysis (PPRP) 269
28. Birth brachial plexus palsy 277

Congenital

29. Congenital talipes equinovarus (CTEV) (idiopathic clubfoot) with a note on congenital vertical talus 295
30. Congenital radial head dislocation 304

Infection

31. Chronic osteomyelitis 310
32. Tuberculous arthritis/synovitis of the joints 319

Inflammation

33. Rheumatoid hand 331
34. Rheumatoid joint (elbow/knee) 346

Degenerative

35. Osteoarthritis (OA) of the knee 354

Tumors

36. Evaluation of bone tumors 361

Deformities

37. Torticollis 373
38. Kyphosis 378
39. Scoliosis 384
40. Sprengel's shoulder/congenital elevation of the scapula 392
41. Genu varum 400
42. Genu valgum 410
43. Bowing of the tibia 418

Complications of Fracture

44. Nonunion (including infective nonunion)	430
45. Malunion	436
46. Volkmann's ischemic contracture (VIC) of upper limb	444
47. Amputation stump	452

Elbow

48. An approach to an elbow case	461
----------------------------------	-----

Forearm

49. Neglected/missed/undiagnosed Monteggia fracture dislocation	474
---	-----

Wrist

50. Malunited distal radius fracture (with a note on Madelung deformity)	479
--	-----

Knee

51. An unstable knee	491
52. A stiff knee	502
53. Swellings around the knee joint	508

Ankle

54. Ankle and subtalar arthritis: Calcaneal/talar/bimalleolar fractures	515
55. Charcot's arthropathy	528
56. Tendo Achillis rupture	537

Shoulder

57. Weak shoulder	545
58. Unstable shoulder	554
59. Stiff shoulder	561

GONIOMETRY

60. Goniometry	567
----------------	-----

Index	581
