

Contents

<i>Preface</i>	v
Chapter 1 Cell Culture Techniques	1
Chapter 2 Electrophoresis	34
Chapter 3 Conjugation Techniques	63
Chapter 4 Fermentation	85
Chapter 5 Biochemical Preparations	108
Chapter 6 Enzyme Linked Immunosorbent Assay (ELISA)	146
Chapter 7 Enzyme and Cell Immobilization	159
Chapter 8 DNA and RNA Isolation	187
Chapter 9 Cloning and Molecular Analysis of Genes	207
Chapter 10 Hybridoma Cell Technology	271
Chapter 11 Immunological Methods	279
<i>Glossary</i>	305
<i>Index</i>	321
