## Preface

1	Food and Its Preservation	1
2	Nature of Food Hazards	26
3	Principles of Fresh Food Storage	47
4	Principles of Refrigerated Gas Storage of Foods	89
5	Principles of Food Freezing	110
6	Principles of Food Preservation By Canning	152
7	Principles of Food Preservation By Drying	218
8	Principles of Food Concentrates	259
9	Principles of Semi-moist Foods	278
10	Principles of Food Preservation By Fermentation	303
11	Principles of Food Pickling and Curing	340
12	Principles of Chemical Preservation of Foods	377
13	Principles of Food Irradiation	412
14	Principles of Food Storage Stability	457
15	Principles of Food Quality Assurance	492
16	Application of Technology	513
