

Contents

<i>Preface</i>	v
----------------	---

Chapter 1

□ Concepts of Block Diagram	1
------------------------------------	---

Chapter 2

□ Feedback Characteristics	48
-----------------------------------	----

Chapter 3

□ Time Response Analysis	64
---------------------------------	----

Chapter 4

□ Routh-Hurwitz Criteria of Stability	108
----------------------------------------------	-----

Chapter 5

□ Mathematical Modelling of Dynamic Systems	140
--------------------------------------------------------	-----

Chapter 6

□ Root Locus Technique	180
-------------------------------	-----

Chapter 7

□ State Variable Analysis	254
----------------------------------	-----

Chapter 8

□ Bode Plots Analysis	334
------------------------------	-----

Chapter 9

□ Compensation in Control System	371
-----------------------------------------	-----

Chapter 10

□ Nyquist Stability Criterion	413
--------------------------------------	-----
