Preface	iv
1. Human Skeletal System: Osteology	1
Experiment 1: Axial skeleton	1
Experiment 2: Appendicular skeleton	7
2. Human Systems: Anatomy and Physiology	13
Experiment 3: Digestive system	13
Experiment 4: Human heart	17
Experiment 5: Respiratory system	19
Experiment 6: Urinary system	23
Experiment 7: Reproductive system	25
Experiment 8: CNS	29
Experiment 9: Eye	33
Experiment 10: Ear	35
3. The Tissues: Histology	39
Experiment 11: Study of different types of tissue, i.e. epithelial tissues, connective tissues, muscular tissues and nervous tissue	39
4. Haematology	49
Experiment 12: Estimation of haemoglobin (Hb)	49
Experiment 13: Report of clotting time	51
Experiment 14: Report of ESR	53
Experiment 15: Report of TLC	55
Experiment 16: Report of DLC	59
Experiment 17: Examination of blood smear for malaria parasite	63
5. Other Procedures	67
Experiment 18: Recording of blood pressure	67
Experiment 19: Recording of pulse rate, heart rate and body temperature	69
Experiment 20: Recording of ECG	73
Viva Voce	77
