

CONTENTS

Contents

<i>Preface</i>	v
<i>Introduction</i>	vii
1. Plastics	1
2. Blow Moulding Process, Equipment and the Mould	30
3. The Blow Mould	39
4. Methods of Blowing	46
5. Mould Parting Line	56
6. Mould Cooling	61
7. The Pinch Off	71
8. Mould Venting	77
9. Undercuts	83
10. Mould Shrinkage	88
11. Blowing Mandrels	91
12. Die, Core and the Parison	97
13. Materials for Blow Moulds	110
14. Mould Making techniques	118
15. Mould Cost Calculation	122
16. Design of blow moulded containers	125
17. Trouble Shooting	141
18. Special Blow Moulding Processes	146
19. Blow Mould Design Procedure	170
Bibliography	172
