Preface

vii

1. Arthroscopy	1
Indications for arthroscopy	3
Knee conditions	5
Cruciate ligament injuries	6
Anterior cruciate ligament (ACL) tear	6
Clinical examination	7
Clinical tests	10
Investigations in ACL tear	11
Role of arthroscopy	12
Posterior cruciate ligament (PCL) tear	14
Combined knee ligament injuries—complex injuries	15
Semilunar cartilage injuries	16
Anatomy	16
Medial meniscus injury	19
Smillie's classification	19
Mechanism of injury	20
Popliteal cyst (Baker's cyst)	28
How is it produced?	28
Arthroscopic treatment	30
Recurrent dislocation of patella	31
Clinical features	31
Radiographs	32
Treatment	33
Chondromalacia patella	34
Investigations	36
Differential diagnosis	36
Loose bodies in the knee	38
2. Osteoarthritis of the Knee	39
Primary osteoarthritis of the knee	39
Criteria and classification of OA knee	45
Investigations	45
Kellegren and Lawrence radiological grading	46
Other investigations	47

ACR guidelines: Traditional format	48
Conservative methods	48
Components of therapeutic exercise	49
Physiotherapy	50
Weight loss	50
Pharmacological treatment – drug therapy	51
Role of mechanical aids	52
Role of alternative therapies	52
Surgery	53
Role of arthroscopy in OA knees	53
Total knee arthroplasty	54
Secondary osteoarthritis of the knee	56
Plantar fasciitis (Subcalcaneal pain)	56
Clinical tests	57
Rehabilitation methods	59
Calcaneal spurs	60
Radiographs	61
Treatment	62
Soft tissue shoulder injuries rotator cuff lesions	63
Role of rotator cuffs	63
Impingement syndrome	64
Supraspinatus tendinitis	64
Rotator cuff tears	67
Classification of rotator cuff tears	67
Investigations to diagnose rotator cuff lesions	68
Role of arthroscopy	70
Differential diagnosis of impingement syndrome	71
Frozen shoulder	71
Role of arthroscopy in frozen shoulder	76

3. Soft Tissue Problems of the Elbow

77

Tennis elbow	77
Lateral tennis elbow	78
Pathophysiology and related symptoms	80
Radiograph for tennis elbow	82
Surgical management	83
Golfer's elbow (syn: Epitrochleitis, medial tennis elbow)	84
Olecranon bursitis (Student's elbow) (sign: Miner's elbow or draughtsman elbow)	85
Regional conditions of the wrist and hand	87

de Quervain's disease	87
Role of arthroscopy	89
Trigger fingers and thumb	89
Treatment of trigger finger	91
Ganglia (Ganglion cyst)	91

4. Standard Arthroscopy Portals 93

Patient positioning	93
Lateral port (Visualization port)	94
Superolateral port (Drainage port)	94
Medial port (Operating port)	94
Superolateral port (Patellar tracking port)	97
Inferolateral port (Lateral release port)	97
Midpatellar port	99

5. 9-Point Diagnostic Knee Arthroscopy 100

First point: Suprapatellar pouch	100
Second point: Patella	101
Third point: Trochlea	102
Fourth point: Medial gutter	102
Fifth point: Medial compartment	102
Sixth point: Intercondylar notch and anterior cruciate ligament	104
Seventh point: Lateral compartment	106
Eighth point: Lateral gutter	106
Ninth point: Patellar tracking	107
