<i>Foreword by Prof Amar Agarwal</i>	v
<i>Preface</i>	vii
<i>Preface to Modern System of Ophthalmology (MSO) Series</i>	xi

Section 1: Disorders of Lens: Basic and Clinical Aspects

- 1. Anatomy and Physiology of Lens 1**
 - Anatomy the of Lens 1
 - Physiology and Biochemistry 9
- 2. Embryology and Congenital Anomalies of Lens 30**
 - Embryology of Lens 28
 - Congenital Anomalies of the Lens 31
- 3. Cataract: Definition, Classification and Epidemiology 35**
 - Definition of Cataract 35
 - Classification of Cataract 36
 - Epidemiology of Cataract 45
- 4. Congenital and Developmental Cataracts 50**
 - Definition, Prevalence and Etiology 50
 - Clinical Types of Congenital Cataract 51
 - Differential Diagnosis of Congenital Cataract 55
 - Management of Congenital and Developmental Cataracts 56
- 5. Acquired Cataracts 59**
 - Definition and Types 59
 - Clinical Profile of Acquired Cataracts 59
 - Management of Cataract in Adults 80
- 6. Displacements of Lens 83**
 - Clinico-etiological Types of Lens Displacements 83
 - Topographical Types of Lens Displacements 88

Section II: Cataract Surgery

- 7. Evolution of Cataract Surgery 91**
 - Evolution of Surgical Techniques 91
 - Evolution of Anaesthetic Techniques for Cataract Surgery and Intraocular Lenses (IOLs) 96
- 8. Anaesthesia for Cataract Surgery 98**
 - Regional (Local) Anaesthesia 98
 - General Anaesthesia for Ocular Surgery 105
- 9. Biometry: Calculation of IOL Power 107**
 - Crude IOL Power Calculations in the Past 107
 - IOL Power Calculation with Biometry 109
- 10. Ophthalmic Viscosurgical Devices, Irrigating Fluids, and Surgical Instruments 122**
 - Ophthalmic Viscosurgical Devices (OVDs) 122
 - Intraocular Irrigating Solutions 128
 - Surgical Instruments 130
- 11. Intraocular Lenses: An Overview 141**
 - Historical Overview 141
 - IOL Chemistry 143
 - Types of IOLs 144
 - Description of A Few Newer Intraocular Lenses 146
 - Summary of Advances in IOL Features 153

- 12. Preoperative Workup and Preparation for Cataract Surgery 154**
 Preoperative Evaluation and Preparations 154
 Preoperative Medication and Preparation 158
- 13. Intracapsular and Conventional Extracapsular Cataract Extraction 162**
 Types and Choice of Surgical Techniques 162
 Intracapsular Cataract Extraction 164
 Planned Modern Extracapsular Cataract Extraction 166
 Postoperative Management after ICCE And ECCE 168
- 14. Manual Small Incision Cataract Surgery 170**
 Surgical Technique of Manual SICs 172
 Astigmatism Control in SICs 196
 SICs in Special Situations 197
 Complications of SICs 197
- 15. Phacoemulsification and Microincision Cataract Surgery 199**
 15.1 Historical Overview 199
 15.2 Phaco Machine 201
 15.3 Phacodynamics 208
 15.4 Phacoemulsification—Surgical Steps 228
 15.5 Microincision Cataract Surgery 254
 15.6 Femtosecond Cataract Surgery 260
- 16. Cataract Surgery in Special Situations 265**
 Phacoemulsification in Small Pupil 265
 Phacoemulsification in Subluxated Lens/Zonular Dialysis 268
 Phacoemulsification in Pseudoexfoliation Syndrome 272
 Phacoemulsification in Uveitic Eye 272
 Phacoemulsification in Dense Cataract 273
 Posterior Polar Cataract 275
 Traumatic Cataract 277
 Cataract Surgery in a Post-refractive Surgery Patient 280
- 17. Paediatric Cataract Surgery 283**
 Special Preoperative Considerations 283
 Techniques of Surgery for Childhood Cataract 284
 Postoperative Management 287
 Complications of Paediatric Cataract Surgery 288
- 18. Astigmatism Control in Cataract Surgery 289**
 Astigmatism in Cataract Surgery 289
 Management of Astigmatism in Phacoemulsification 299
 Management of Astigmatism in SICs 306
- 19. Intraocular Lens Implantation in the Absence of Posterior Capsular Support 310**
 General Considerations 310
 Anterior Chamber IOLs 311
 Posterior Chamber IOLs 313
- 20. Complications of Cataract Surgery and their Management 322**
 Preoperative Complications 322
 Operative Complications 323
 Postoperative Complications 329
