|--|----------------|
| <i>Preface</i> | v |
| 1. Introduction | 1-26 |
| History and Scope of Pharmacognosy | 1 |
| Indian and Alternative System of Medicine | 6 |
| Sources of Crude Drugs | 15 |
| Drug Discovery from Natural Substances | 19 |
| 2. Medicinal Plant Biotechnology | 27-60 |
| Biosynthetic pathway of phytoconstituents | 27 |
| Radioactive Tracer Technique | 53 |
| 3. Medicinal and Aromatic Plant Substances | 61-78 |
| Cultivation of Medicinal Plants | 61 |
| Factors Affecting Cultivation | 62 |
| Methods of Pest Control | 68 |
| Endogenous Factors | 69 |
| Requirement of Packaging Materials | 76 |
| 4. Phytopharmaceuticals and Marker Constituents | 79-90 |
| Characteristics of Good Marker | 79 |
| Phytopharmaceuticals with their Marker Constituent | 80 |
| 5. Drugs Derived from Natural Sources | 91-205 |
| 5.1 Carbohydrates | 91 |
| 5.2 Glycosides | 104 |
| 5.3 Terpenoids, Volatile Oils and Resins | 135 |
| 5.4 Alkaloids | 158 |
| 5.5 Tannins | 185 |
| 5.6 Lipids, Fats and Waxes | 193 |
| 6. Drugs from Marine Sources | 206-212 |
| Marine Drugs | 206 |
| Marine Toxins | 210 |
| Algal Toxin | 210 |
| 7. Drugs from Mineral Origin | 213-217 |
| Shilajit | 213 |
| Asbestos | 214 |
| Kaolin | 215 |
| Bentonite | 215 |
| Kieselguhr | 216 |
| 8. Enzymes and Protein Substances | 218-224 |
| Enzymes | 218 |
| Protein | 222 |

| | |
|---|----------------|
| 9. Aromatherapy | 225-232 |
| Eucalyptus | 229 |
| Geranium | 229 |
| Jasmine | 230 |
| Rose | 230 |
| Sandalwood | 231 |
| Peppermint | 232 |
| 10. Flavoring Agents, Sweeteners and Bitter Plant Substances | 233-242 |
| Flavouring Agents | 233 |
| Sweetning Agents | 239 |
| Plant Bitters | 240 |
| 11. Plant Anatomy | 243-259 |
| Tissus and Tissue Systems | 243 |
| Anatomy of Monocot and Dicot Stems | 253 |
| Anatomy of Dicot and Monocot Leaves | 255 |
| Anatomy of Monocot and Dicot Roots | 257 |
| 12. Cosmeceuticals | 260-268 |
| Structure of the Skin | 261 |
| Origin of Botanical Extracts | 264 |
| Characterization of Casmetic Care Products | 264 |
| 13. Poisonous Teratogenic and Hallucinogenic Plants | 269-278 |
| Poisonous Plants | 269 |
| 14. Ayurvedic Pharmacy and Standardization of Ayurvedic Formulation | 279-288 |
| History of Ayurveda | 279 |
| Quality Control and Standards | 283 |
| 15. Plant Tissue Culture | 289-305 |
| History of Plant Tissue Culture | 289 |
| Equipment and Apparatus | 291 |
| Sterilization of Glasswares and Equipment | 293 |
| Types of Plant Tissue Culture | 298 |
| Applications of PTC (Plant Tissue Culture) | 305 |
| 16. Study of Different Families | 306-313 |
| Floral Formula and Floral Diagram | 306 |
| Families with their Description | 306 |
| 17. Quality Control and Standardization of Herbal Drugs and Formulation | 314-327 |
| Plant Identification | 314 |
| Parameters for Quality Control of Herbal Drugs | 321 |
| 18. Morphological, Microscopic and Analytical Profile of Important Herbs | 328-343 |
| 19. Chromatography | 344-353 |
| Types of Chromatography with their Description | 345 |
| 20. Herbal Drug Interactions | 354-357 |
| 21. Phytonutrients: The Natural Drugs of Future | 358-364 |
| Nutraaceuticals | 358 |
