Preface to the Third Edition

v

Section I GENERAL ANATOMY

1. Introduction to Anatomy	03–07		
Subdivision of human anatomy	3		
Anatomical terms	3		
Body positions	3		
Anatomical planes	4		
Terms of relationship	4		
Terms of comparison	4		
Terms describing movements at joints	5		
Terms related to muscle	5		
Terms related to vessels	5		
Body organization	5		
Body regions	6		
Body cavities	6		
2. Cell and Cell Division	08–17		
Cell membrane/plasma membrane/plasmalemma	8		
Structure of cell membrane	8		
Cell junctions or contacts	9		
Cytoplasm	9		
Endoplasmic reticulum (ER)	9		
Golgi apparatus	10		
Ribosomes	10		
Lysosomes	10		
Mitochondria (power house of cells)	10		
Centrosome	11		
Microtubules	11		
Nucleus	11		
Chromosomes	11		
Genes	12		
Chromosomal abnormalities	12		
Barr bodies (sex chromatin)	14		
Karyotyping	14		
Cell division	14		
Mitosis	14		
Meiosis	15		
Recent advances	17		
3. Tissues of the Body	18–25		
Epithelial tissue	18		
Connective tissue	20		
		Areolar tissue	22
		Adipose tissue	22
		Myxomatous tissue	22
		Reticular tissue	22
		Skin (integument)	22
		4. Cartilage and Bone	26–33
		Hyaline cartilage	26
		Elastic cartilage	27
		Fibrocartilage (white fibrocartilage)	27
		Bone	27
		Functions of the bone	27
		Special types of bones	28
		Macroscopic structure of a bone	28
		Bone marrow	29
		Compact bone	29
		Bone cells	29
		5. Muscles	34–37
		Smooth muscles (Non-striated/involuntary)	34
		Cardiac muscle (striated/involuntary)	34
		Skeletal muscles (striated/voluntary)	35
		Nerve supply	36
		Neuromuscular junction	36
		Motor unit	36
		Action of muscle	36
		6. Joints	38–42
		Fibrous joints	38
		Cartilaginous joints	38
		Synovial joint	39
		7. Blood Vessels and Lymphatic System	43–47
		Arteries	43
		Veins	44
		Anastomosis	45
		Lymphatic system	45
		8. Nervous Tissue	48–51
		Nervous tissue	48
		Neuroglia (glial cells)	49
		<i>Self-Assessment Exercise</i>	53–58

Section II MUSCULOSKELETAL SYSTEM

- 9. Bones of the Limbs** 61–72
- Clavicle (collar bone) 61
 - Scapula (shoulder blade) 61
 - Humerus 62
 - Radius 64
 - Ulna 65
 - Carpal bones 65
 - Lower limb 66**
 - Hip bone (innominate bone) 66
 - Femur (thigh bone) 68
 - Patella (knee cap) 69
 - Tibia 70
 - Fibula 71
 - Tarsal bones 71
 - Talus 72
 - Calcaneus 72
 - Navicular bone 72
 - Cuboid 72
 - Cuneiform bones 72
 - Metatarsals 72
 - Phalanges 72
- 10. Muscles of the Limbs** 73–101
- Muscles of the Upper limb 73**
- Pectoral region 73
 - Mammary gland (the breast) 73
 - Muscles of the back 75
 - Muscles of the scapular region 76
 - Muscles of the front of the arm (flexor compartment) 77
 - Muscles of the back of the arm (posterior or extensor compartment) 78
 - Cubital fossa 78
 - Muscles of the front of the forearm 79
 - Muscles of the back of the forearm 82
 - Intrinsic muscles of hand 83
 - Lumbrical muscles 84
 - Interosseous muscles (or interossei) 84
 - Muscles of the lower limb 84**
 - Muscles of the anterior (extensor) compartment of the thigh 84
 - Femoral triangle 85
 - Muscles of the medial (adductor) compartment of the thigh 87
 - Adductor canal (subsartorial canal) 88
 - Muscles of the gluteal region 88
 - Muscles of the back of the thigh 90
 - Popliteal fossa 90
 - Ankle region 92
- Muscles of the anterior
Compartment of the leg 93
Muscles of the lateral compartment of the leg 95
Muscles of the back of the leg 95
Sole of the foot 97
Arches of foot 98
- 11. Joints of the Limbs** 102–115
- Upper limb 102**
- Sternoclavicular joint 102
 - Acromioclavicular joint 102
 - Lower limb 107**
 - Hip joint 107
 - Knee joint 109
 - Ankle joint 113
 - Joints of the foot 115
 - Subtalar joint (talocalcanean joint) 115
- 12. Nerves and the Vessels of the Limbs** 116–135
- Brachial plexus 116
 - Nerves of the lower limb 124
 - Sciatic nerve 125
 - Blood vessels of the upper limb 128**
 - Arteries of the upper limb 128
 - Veins of the upper limb 131
 - Blood vessels of the lower limb 132**
 - Arteries of the lower limb 132
 - Veins of the lower limb 134
- 13. Axial Skeleton and their Joints** 136–151
- Vertebral column 136
 - Thoracic cage 141
 - Skull 143
 - Joints of the axial skeleton 149
- 14. Muscles of the Thorax, Abdomen, Head and Neck** 176–189
- Muscles of the thoracic wall 152**
- Intercostal muscles 153**
 - Muscles of abdomen 155**
 - Anterior abdominal wall muscles 155
 - Pelvic diaphragm 158
 - Muscles of the head and neck 159**
 - Scalp 159
 - Face 159
 - Side of the neck 160
 - Extraocular muscles 163
 - Muscles of mastication 164
- Self-Assessment Exercise* 167–178

Section III ORGAN SYSTEM

- 15. Upper Respiratory Tract 181–190**
- Nasal cavity 181**
 Introduction 181
 Medial wall of the nasal cavity (nasal septum) 182
 Lateral wall of the nasal cavity 182
 Paranasal air sinuses 184
 Skeleton of the larynx 186
 Cavity of the larynx (interior of the larynx) 186
 Vocal cords (vocal folds) 187
 Trachea (windpipe) 189
- 16. Lung and Pleurae 191–198**
- Pleura 191**
 Pleural recesses 191
- Lungs 193**
 External features of the lung 193
 Differences between two lungs 195
 Bronchial tree 195
 Bronchopulmonary segments 196
 Blood supply to the lung 196
 Nerve supply to the lung 196
- 17. Heart and Pericardium 199–209**
- Pericardium 199**
 Pericardial sinuses 199
- Heart 200**
 Situation 200
 Circulation of blood 200
 External features 200
 Chambers of the heart 201
 Blood supply to the heart 204
 Venous drainage of the heart 207
 Nerve supply to the heart 207
 Conducting system of the heart 208
 Structure of the heart 208
- 18. Blood vessels of the Thorax, Abdomen, Head and Neck 210–221**
- Arteries of the thorax 210**
 Arch of aorta 210
 Descending thoracic aorta 210
 Internal thoracic artery (Internal mammary artery) 211
- Veins of the thorax 211**
 Azygos vein 211
- Arteries of abdomen and pelvis 212**
 Arteries 212
 Portal vein 216
 Inferior vena cava 217
- Arteries of head and neck 217**
 Arteries 217
 Subclavian artery 219
- Veins of the head and neck 220**
 Internal jugular vein 220
 External jugular vein 220
 Retromandibular vein 221
- 19. Gastrointestinal Tract—Upper Part 222–231**
- Oral cavity 222**
 Vestibule 222
 Oral cavity proper 222
 Teeth 222
 Tongue 223
 Palate 225
- Pharynx 227**
 Nasopharynx 227
 Oropharynx 227
 Laryngopharynx 229
- Esophagus 230**
- 20. Stomach and Intestine 232–240**
- The peritoneal cavity and peritoneum 232
 Stomach (gaster/venter) 232
- Small intestine 234**
 General features of small intestine 234
- Large intestine 236**
 Characteristic features of the large intestine 236
- 21. Glands of the Digestive System 241–247**
- Salivary glands 241**
 Parotid salivary gland 241
 Submandibular salivary gland 242
 Sublingual salivary gland 243
- Extrahepatic biliary apparatus 243**
 Gallbladder 243
 Bile duct 243
- Pancreas 245**
- Spleen 246**
- 22. Urinary System 248–256**
- Kidney 248**
- Ureters 252**
- Urinary bladder 253**
- Urethra 255**
 The male urethra 255
 Sphincters of the urethra 256
 Female urethra 256

23. Male Reproductive System	257–262	23. Basic Embryology	268–274
Testis 257		Female organs of reproduction 268	
Prostate gland 260		Ovarian cycle 268	
Ejaculatory ducts 261		Oogenesis 269	
Seminal vesicles 261		Menstrual cycle (uterine cycle) 269	
Penis 261		Male organs of reproduction 269	
24. Female Reproductive System	263–267	Spermatogenesis 270	
Ovary 263		Fertilization and implantation 270	
Uterine tubes (fallopian tubes) 264		Stages of embryology 271	
Uterus (womb) 265		Placenta 273	
Parts of the uterus 265		Umbilical cord 273	
Supports of uterus 266		<i>Self-Assessment Exercise</i>	275–281
Vagina 267			

Section IV NERVOUS SYSTEM ENDOCRINES AND SPECIAL SENSES

26. Coverings of the Brain and Dural Venous Sinuses	285–289	Blood supply to cerebellum 311	
Dura mater 285		Functions of the cerebellum 311	
Arachnoid mater 286		30. Cerebrum	313–321
Subarachnoid cisterns 286		Subdivision of the cerebral hemisphere 313	
Pia mater 286		Structure of cerebral cortex 316	
Middle meningeal artery 287		Functional areas of cerebral cortex 316	
Dural venous sinuses 288		Blood supply to the cerebrum 318	
Cavernous sinuses 288		White matter of the cerebrum 318	
27. Spinal Cord	290–297	31. Subcortical Grey Matter	322–329
Coverings of the spinal cord 290		Basal nuclei 322	
Duramater 290		Connections of basal ganglia 322	
Arachnoid mater 290		Connections of corpus striatum 323	
Spinal pia mater 290		Thalamus 324	
External features of spinal cord 291		External features 324	
Internal structure of spinal cord 292		Internal features of thalamus 325	
Tracts of the spinal cord 292		Connections of thalamus 326	
Pyramidal (corticospinal) tract 292		Hypothalamus 327	
Extrapyramidal tracts 292		Connections 328	
Ascending tracts of the spinal cord 294		Limbic system 328	
28. Brainstem	298–306	Hippocampus 328	
Medulla oblongata 298		32. Ventricles of Brain	330–335
Pons 302		Lateral ventricle 330	
Midbrain 304		Third ventricle 332	
29. Cerebellum	307–312	Fourth ventricle 332	
Morphological subdivision of cerebellum 308		Cerebrospinal fluid (CSF) 334	
Deep cerebellar nuclei 310		33. Blood Supply to the Brain	336–339
Microscopic structure of cerebellum 310		Internal carotid artery 336	
Connections of cerebellum 310		Vertebral artery 337	
Cerebellar peduncles 310			

The basilar artery	338		
Circle of willis	338		
Venous drainage	338		
Cerebral angiography	339		
34. Autonomic Nervous System	340–344		
Sympathetic nervous system	340		
Motor component	340		
Ganglionated sympathetic chain	340		
Sensory component of the sympathetic system			
conveys visceral pain sensation	341		
Effects of sympathetic stimulation	341		
Parasympathetic nervous system	341		
The motor component	341		
35. Cranial Nerves	345–355		
Olfactory nerve (1st cranial nerve)	345		
Optic nerve (2nd cranial nerve)	345		
Oculomotor nerve (3rd cranial nerve)	346		
Trochlear nerve (4th cranial nerve)	347		
Trigeminal nerve (5th cranial nerve)	347		
Trigeminal neuralgia	349		
Abducent nerve (6th cranial nerve)	349		
Facial nerve (7th cranial nerve)	349		
Vestibulocochlear nerve (8th cranial nerve)	351		
Glossopharyngeal nerve (9th cranial nerve)	351		
		Vagus nerve (10th cranial nerve)	352
		Accessory nerve (11th cranial nerve)	353
		Hypoglossal nerve (12th cranial nerve)	353
		36. Endocrine Glands	356–361
		Hypophysis cerebri (pituitary gland)	356
		Thyroid gland	358
		Parafollicular cells (c-cells/clear cells)	360
		Parathyroid glands	360
		Suprarenal glands (adrenal glands)	360
		Pineal gland (epiphysis cerebri)	361
		37. Special Senses	362–367
		Ear	362
		Eyeball	365
		<i>Self-Assessment Exercise</i>	369–377
		38. Anatomy of Certain Clinical Procedures	377–385
		Arterial pulsation	378
		Intravenous infusion	379
		Arterial catheterization	381
		Intramuscular injections	381
		Tendon reflexes	381
		Auscultation of cardiac valves	383
		Model Question Papers	385–396
<i>Index</i>			397–402
