Contents

Foreword by Asit Kumar Mukhopadhyay *vii*
Preface to the Second Edition *ix*
Preface to the First Edition *xi*
Color plate I and II between pages 12 and 13

1. Concept of Soil **1**

1.1 What is Soil? 1
1.2 Approaches of Soil Study 2
1.3 Functions of Soil 3
1.4 Soil as Environmental Interface 3
1.5 Composition of Soil 4
1.6 The Soil Profile and its Layers 6
1.7 Surface Soil and Subsoil 7
1.8 Branches of Soil Science 7
Study Questions 8
Answers 9
Suggested Reading 9

2. Rock and Minerals in Earth's Crust **10**

2.1 Earth and its Interior 10
2.2 Composition of Earth's Crust 11
2.3 Classification of Rocks 11
2.4 Relative Abundance of Rocks in Earth's Crust 13
2.5 Rock Forming Minerals 14
Study Questions 19
Answers 23
Suggested Readings 23

3. Weathering and Soil Formation **24**

3.1 Weathering of Rock and Minerals 24
3.2 Physical Weathering 24
3.3 Chemical Weathering 25
3.4 Biological Weathering 27
3.5 Factors Affecting Weathering 28
3.6 Weathering Sequence of Minerals 29
3.7 Soil Forming Factors 30
3.8 Soil Forming or Pedogenic Processes 35
3.9 The Soil Profile 36
Study Questions 38
Answers 41
Suggested Readings 41

4. Soil Classification **42**

4.1 Soil Classification Systems 42
4.2 Diagnostic Surface and Subsurface Horizons 45

4.3 Soil Moisture Regimes (SMR) 45
4.4 Soil Temperature Regimes (STR) 45
4.5 Categories and Nomenclature of Soil Taxonomy 47
4.6 Soils of India 58
Study Questions 64
Answers 68
Suggested Readings 68

5. Soil Survey and Mapping **69**

5.1 Purposes of Soil Survey 69
5.2 Characteristics of Soil Survey 70
5.3 Base Maps 70
5.4 Map Units 71
5.5 Types of Soil Survey 72
5.6 Steps of Soil Survey and Mapping 73
5.7 Use of Geographic Information System in Soil Survey and Mapping 74
5.8 Land Capability Classification 74
5.9 Land Suitability Classification 76
5.10 Agroecological Regions of India 77
Study Questions 83
Answers 85
Suggested Readings 85

6. Physical Properties of Soil **86**

6.1 Interrelationship Among Soil Components 86
6.2 Soil Texture 91
6.3 Soil Textural Classes 95
6.4 Specific Surface Area of Soil 96
6.5 Soil Structure 98
6.6 Genesis of Soil Structure 100
6.7 Factors Affecting Aggregation and Structural Stability 105
6.8 Characterisation and Evaluation of Soil Structure 106
6.9 Management of Soil Structure 109
6.10 Soil Crusting 110
6.11 Tillage 110
6.12 Dynamic Properties of Soil 112
6.13 Puddling 118
6.14 Soil Compaction and Consolidation 119
6.15 Soil Strength 120
6.16 Shear Strength 121
6.17 Soil Colour 122
6.18 Soil Physical Constraints in Crop Production and their Management 123
Study Questions 125
Answers 129
Suggested Readings 129

7. Soil Water **130**

7.1 Structure and Properties of Water 130
7.2 Water Retention and Capillarity 131
7.3 Soil Water Energy Status 133
7.4 Components of Total Soil Water Potential 133
7.5 Quantitative Expression of Soil Water Potential and their Relationship 137
7.6 Measurement of Soil Water Potential 137
7.7 Soil Water Content and Soil Water Potential 140
7.8 Measurement of Soil Water 142
7.9 Soil Moisture Constants 145
7.10 Classification of Soil Water 146

7.11 Factors Affecting Plant Available Soil Water 148
7.12 Soil Water Movement in Saturated Soil 150
7.13 Water Movement in Unsaturated Soil 159
Study Questions 162
Answers 165
Suggested Readings 165

8. Management of Field Water **166**

8.1 Hydrological Cycle 166
8.2 The Soil-Plant-Atmosphere Continuum 167
8.3 Soil-Water-Plant Relations 168
8.4 Water Infiltration into Soil 169
8.5 Soil Water Distribution 173
8.6 Evapotranspiration and Consumptive Use of Water 174
8.7 Efficiency of Water Use (Water Productivity) 179
8.8 Management of Soil Water 180
8.9 Drainage 188
Study Questions 190
Answers 191
Suggested Readings 191

9. Soil Air and Aeration **192**

9.1 Soil Air and its Composition 192
9.2 Factors Affecting Composition of Soil Air and Aeration 193
9.3 Soil Aeration 194
9.4 Characterisation of Soil Aeration Status 196
9.5 Ecological Effects of Soil Aeration 197
9.6 Management of Soil Aeration 199
Study Questions 199
Answers 201
Suggested Readings 201

10. Soil Temperature **202**

10.1 Variation in Soil Temperature 202
10.2 Factors Affecting Soil Temperature 205
10.3 Soil Temperature Regime 206
10.4 Measurement of Soil Temperature 207
10.5 Thermal Properties of Soil 207
10.6 Factors Affecting Thermal Conductivity 209
10.7 Heat Flow in Soil 210
10.8 Soil Temperature and Plant Growth 212
10.9 Management of Soil Temperature 213
Study Questions 214
Answers 216
Suggested Readings 216

11. Soil Colloids **217**

11.1 General Properties of Soil Colloids 217
11.2 Types of Soil Colloids 219
11.3 Basics of Crystalline Silicate Clay 219
11.4 Structural Features of Crystalline Silicate Clays 222
11.5 Structural Features of Noncrystalline (Amorphous) Silicate Clays 230
11.6 Iron and Aluminium Oxide Clays 230
11.7 Humus 231
11.8 Identification of Clays 231
11.9 Origin of Charges on Soil Colloids 237

11.10 Electric Double Layer 240
11.11 Zeta Potential and Stability of Soil Colloids 241
11.12 Adsorption in Soil 243
11.13 Adsorption Isotherm 244
11.14 Ion Exchange in Soil 246
11.15 Ion Exchange Formulas 252
11.16 Schofield's Ratio Law 260
Study Questions 261
Answers 265
Suggested Readings 265

12. Soil Acidity **266**

12.1 Sources of H^+/OH^- Ions in Soil 267
12.2 Genesis of Acid Soils 269
12.3 Occurrence of Acid Soils in the World and in India 270
12.4 Different Pools of Soil Acidity 271
12.5 Buffering of pH in Soil 273
12.6 Determination of Soil pH 274
12.7 Soil Reaction and Plant Growth 277
12.8 Liming Materials 277
12.9 Lime Requirement 278
12.10 Management of Acid Soils 281
Study Questions 282
Answers 284
Suggested Readings 285

13. Soil Alkalinity and Salinity **286**

13.1 Occurrence of Salt Affected Soils 286
13.2 Development of Alkaline Soils 286
13.3 Characterisation of Salt-affected Soils 289
13.4 Classification of Salt-affected Soils 290
13.5 Growth of Plant on Salt-affected Soils 291
13.6 Reclamation of Salt-affected Soils 294
13.7 Management of Salt-affected Soils 299
13.8 Quality of Irrigation Water 300
13.9 Use of Brackish Water for Irrigation 305
Study Questions 307
Answers 309
Suggested Readings 309

14. Soil Organisms and their Activities **310**

14.1 Classification of Soil Organisms 311
14.2 Soil Fauna 312
14.3 Soil Flora 315
14.4 Factors Affecting the Microbial Population and Activity 322
14.5 Beneficial Role of Soil Organisms 324
14.6 Harmful Role of Soil Organisms to Higher Plants 334
14.7 Biofertilisers 335
14.8 Genetically Engineered Microorganisms (GEMs) 337
Study Questions 337
Answers 341
Suggested Readings 341

15. Soil Organic Matter **342**

15.1 Carbon Cycle 342
15.2 Decomposition of Organic Matter 342
15.3 Factors Affecting Rate of Decomposition 346
15.4 Humus 349
15.5 Humus–mineral Interaction 355

15.6 Role of Organic Matter on Soil Productivity 355
15.7 Quality of Soil Organic Matter 357
15.8 Management of Soil Organic Matter 358
15.9 Soil and Global Warming 359
Study Questions 361
Answers 363
Suggested Readings 363

16. Plant Growth and Elements in Plant Nutrition 364

16.1 Factors Affecting Plant Growth 364
16.2 Essential Nutrients 368
16.3 Classification of Essential Nutrients 368
16.4 Beneficial Elements 370
16.5 Tracer Elements 370
16.6 Nutrient Levels in Plant 370
16.7 Influence of Essential Elements in Plant 371
16.8 Functions of Beneficial Elements in Plants 380
16.9 Nutrient Movement from Soil to Plant 381
16.10 Nutrient Absorption by Plants 383
Study Questions 389
Answers 393
Suggested Readings 393

17. Nitrogen in Soil 394

17.1 Nitrogen Content in Soil 394
17.2 Forms of Soil Nitrogen 395
17.3 Nitrogen Balance in Soil 395
17.4 Nitrogen Cycle 401
17.5 Nitrogen Use Efficiency 402
17.6 Management of Nitrogen in Soil 403
Study Questions 403
Answers 405
Suggested Readings 405

18. Phosphorus in Soil 406

18.1 Phosphorus Content in Soil 406
18.2 Forms of Phosphorus in Soil 406
18.3 Mineralisation and Immobilisation of Phosphorus in Soil 408
18.4 The Phosphorus Cycle 409
18.5 Phosphorus in Soil Solution 409
18.6 Phosphate Fixation 410
18.7 Factors Affecting Phosphorus Fixation 412
18.8 Phosphate Fixing Capacity of Soils 414
18.9 Losses of Phosphorus from Soils 415
18.10 Phosphorus Management in Soils 416
Study Questions 417
Answers 419
Suggested Readings 419

19. Potassium in Soil 420

19.1 Potassium Content in Soils 420
19.2 Forms of Potassium in Soils 420
19.3 The Potassium Cycle 423
19.4 Factors Affecting Potassium Availability 423
19.5 Quantity–Intensity Relationship of Potassium 424
19.6 Potassium Fixation/Release 426

19.7 Losses of Soil Potassium 427
19.8 Gains of Soil Potassium 428
19.9 Management of Soil Potassium 428
Study Questions 429
Answers 431
Suggested Readings 431

20. Secondary Nutrients **432**

20.1 Sources and Forms of Calcium in Soil 432
20.2 Losses of Calcium 432
20.3 The Availability of Calcium in Soils 433
20.4 Mitigation of Calcium Deficiencies 434
20.5 Sources and Forms of Magnesium in Soil 434
20.6 Losses of Magnesium 435
20.7 The Availability of Magnesium in Soils 435
20.8 Mitigation of Magnesium Deficiencies 436
20.9 Sources and Forms of Sulphur in Soil 436
20.10 Sulphur Cycle 438
20.11 Sulphur Content in Soils 439
20.12 Losses of Sulphur 439
20.13 Sulphur Fertilisation Materials 440
Study Questions 440
Answers 442
Suggested Readings 442

21. Micronutrients **443**

21.1 Sources of Micronutrients 443
21.2 Available Micronutrient Status in Indian Soils 444
21.3 Forms of Micronutrients in Soils 444
21.4 Soil Conditions Conducive for Micronutrient Deficiency/Toxicity 445
21.5 Factors Influencing the Availability of Micronutrients 446
21.6 Micronutrient Management in Soils 450
Study Questions 453
Answers 455
Suggested Readings 455

22. Submerged Soils **456**

22.1 Types of Submerged Soils 456
22.2 Characteristics of Submerged Soils 457
22.3 Electrochemical Changes 460
22.4 Chemical Transformation of Nutrients 464
22.5 Management of Rice Soils 470
Study Questions 470
Answers 472
Suggested Reading 472

23. Manures and Fertilisers **473**

23.1 Classification of Manures 474
23.2 Bulky Organic Manures 474
23.3 Concentrated Organic Manures 479
23.4 Fertilizer Consumption in India 480
23.5 Classification of Fertilisers 481
23.6 Straight Nitrogenous Fertilisers 481
23.7 Phosphatic Fertilisers 494
23.8 Classification of Phosphatic Fertilisers 494
23.9 Potassic Fertilisers 499
23.10 Complex Fertilisers 501
23.11 Mixed Fertilisers 505
23.12 Fertiliser Storage 509
23.13 Soil Amendments 509

Study Questions 510
Answers 513
Suggested Readings 513

24. Soil Fertility Evaluation 514

24.1 Soil Fertility Concepts 514
24.2 Diagnostic Techniques for Soil Fertility Evaluation 516
24.3 Nutrient Deficiency Symptoms of Plants 516
24.4 Plant Analysis 518
24.5 Biological Tests 523
24.6 Soil Testing 524
24.7 Fertiliser Recommendation 528
24.8 Soil Fertility Mapping 529
24.9 Specific Problems in Soil Fertility Evaluation 530
Study Questions 530
Answers 532
Suggested Readings 532

25. Principles of Nutrient Management 533

25.1 Factors Affecting Nutrient Response 533
25.2 Site-specific Nutrient Management 539
25.3 Management of Organic Nutrient Sources 542
25.4 Balanced Fertilisation 543
25.5 Integrated Nutrient Management 544
25.6 Simulation Modelling and Decision Support Systems 546
Study Questions 546
Answers 547
Suggested Readings 548

26. Soil Erosion and Conservation 549

26.1 Soil Erosion 549
26.2 Forms of Soil Erosion 550
26.3 Effects of Soil Erosion 550
26.4 Factors Affecting Soil Erosion 551
26.5 Mechanics of Water Erosion 552
26.6 Types of Water Erosion 553
26.7 Prediction of Water Erosion 555
26.8 Estimation of Soil Loss 557
26.9 Mechanics of Wind Erosion 557
26.10 Factors Affecting Wind Erosion 558
26.11 Prediction of Wind Erosion 559
26.12 Soil and Water Conservation Measures 559
26.13 Watershed Management 562
Study Questions 563
Answers 565
Suggested Readings 565

27. Radioisotopes in Agriculture 566

27.1 Atomic Structure 566
27.2 Nuclear Force and Nuclear Stability 567
27.3 Radioactivity and Radioisotope 569
27.4 Nature and Properties of Radiation and its Interaction with Matter 570
27.5 Rate of Radioactive Change 571
27.6 Measurement of Radioactivity 573
27.7 Application of Radioisotopes in Agriculture 577
27.8 Radiation Protection 585
Study Questions 586
Answers 588
Suggested Readings 588

28. Soil, Water and Air Pollution **589**

28.1 Soil Pollution 589
28.2 Water Pollution 595
28.3 Air Pollution 597
28.4 Effect of Soil Pollution 599
28.5 Use of Remote Sensing in Monitoring of Soil and Water Pollution 602
28.6 Remediation of Soil and Water Pollution 603
Study Questions 608
Answers 609
Suggested Readings 609

29. Remote Sensing and GIS in Agriculture **610**

29.1 Modern Technologies for Soil Investigation 610
29.2 Elements of Remote Sensing Process 612
29.3 Application of Remote Sensing in Agriculture 619
29.4 Geographic Information System 622
29.5 Application of GIS 625
Study Questions 626
Answers 627
Suggested Readings 627

30. Soil Health **628**

30.1 Concept of Soil Quality/Health 628
30.2 Characteristics of a Healthy Soil 630
30.3 Assessment of Soil Health 631
30.4 Soil Health Scorecard 641
30.5 Soil Management 642
30.6 Relevant Emerging Issues 645
Study Questions 646
Answers 646
Suggested Readings 646

31. Nanotechnology in Agriculture **647**

31.1 Classification of Nanoparticles 648
31.2 Characteristics of Nanoparticles 648
31.3 Synthesis of Nanoparticles 649
31.4 Application of Nanotechnology 649
31.5 Societal Effects of Nanotechnology 655
Study Questions 655
Answers 656
Suggested Readings 656

32. Agricultural Waste Management **657**

32.1 Sources of Agricultural Wastes 657
32.2 Nature and Characteristics of Agricultural Wastes 659
32.3 Impact of Agricultural Waste on Environment 661
32.4 Agricultural Waste Utilisation Routes 662
32.5 Agricultural Waste Management (AWM) 667
32.6 Environmental Benefit of Waste Management 674
Study Questions 675
Answers 676
Suggested Readings 676

Bibliography **677**

Appendices **683**

Index **689**
