Foreword by Prof Amar Agarwal  
Preface

v  
vii

## Section I: Disorders of Lens: Basic and Clinical Aspects

- 1. Anatomy and Physiology of Lens 1**  
Anatomy of the Lens 1  
Physiology and Biochemistry 9
- 2. Embryology and Congenital Anomalies of Lens 28**  
Embryology of Lens 28  
Congenital Anomalies of the Lens 31
- 3. Cataract: Definition, Classification, and Epidemiology 35**  
Definition of Cataract 35  
Classification of Cataract 36  
Epidemiology of Cataract 45
- 4. Congenital and Developmental Cataracts 50**  
Definition, Prevalence and Etiology 50
- 5. Acquired Cataracts 59**  
Clinical Types of Congenital Cataract 51  
Differential Diagnosis of Congenital Cataract 56  
Management of Congenital and Developmental Cataracts 56  
Definition and Types 59  
Clinical Profile of Acquired Cataracts 59  
Management of Cataract in Adults 80
- 6. Displacements of Lens 83**  
Clinico-etiological Types of Lens Displacements 83  
Topographical Types of Lens Displacements 88

## Section II: Cataract Surgery

- 7. Evolution of Cataract Surgery 91**  
Evolution of Surgical Techniques 91  
Evolution of Anaesthetic Techniques for Cataract Surgery and Intraocular Lenses (IOLs) 96
- 8. Anaesthesia for Cataract Surgery 98**  
Regional (Local) Anaesthesia 98  
General Anaesthesia for Ocular Surgery 105
- 9. Biometry: Calculation of IOL Power 107**  
Crude IOL Power Calculations in the Past 107  
IOL Power Calculation with Biometry 109
- 10. Ophthalmic Viscosurgical Devices, Irrigating Fluids, and Surgical Instruments 132**  
Ophthalmic Viscosurgical Devices 132  
Intraocular Irrigating Solutions 138  
Surgical Instruments 140
- 11. Intraocular Lenses: An Overview 151**  
Historical Overview 151  
IOL Chemistry 153  
Types of IOLs 154  
Description of a Few Newer Intraocular Lenses 156  
Summary of Advances in IOL Features 175

- 12. Preoperative Workup and Preparation for Cataract Surgery 176**
  - Preoperative Evaluation and Preparations 176
  - Preoperative Medication and Preparation 180
- 13. Intracapsular and Conventional Extracapsular Cataract Extraction 184**
  - Types and Choice of Surgical Techniques 184
  - Intracapsular Cataract Extraction 186
  - Planned Modern Extracapsular Cataract Extraction 188
  - Postoperative Management after ICCE and ECCE 190
- 14. Manual Small Incision Cataract Surgery 192**
  - Surgical Technique of Manual SICS 194
  - Astigmatism Control in SICS 218
  - SICS in Special Situations 219
  - Complications of SICS 219
- 15. Phacoemulsification and Microincision Cataract Surgery 221**
  - 15.1 Historical Overview 221
  - 15.2 Phaco Machine 223
  - 15.3 Phacodynamics 230
  - 15.4 Phacoemulsification—Surgical Steps 250
  - 15.5 Microincision Cataract Surgery 276
  - 15.6 Femtosecond Cataract Surgery 282
- 16. Cataract Surgery in Special Situations 287**
  - Phacoemulsification in Small Pupil 287
  - Phacoemulsification in Subluxated Lens/Zonular Dialysis 290
  - Phacoemulsification in Pseudoexfoliation Syndrome 294
  - Phacoemulsification in Uveitic Eye 294
  - Phacoemulsification in Dense Cataract 295
  - Posterior Polar Cataract 297
  - Traumatic Cataract 300
  - Cataract Surgery in a Post-refractive Surgery Patient 303
- 17. Paediatric Cataract Surgery 306**
  - Special Preoperative Considerations 306
  - Techniques of Surgery for Childhood Cataract 307
  - Postoperative Management 310
  - Complications of Paediatric Cataract Surgery 311
- 18. Astigmatism Control in Cataract Surgery 312**
  - Astigmatism in Cataract Surgery 312
  - Management of Astigmatism in Phacoemulsification 322
  - Management of Astigmatism in SICS 329
- 19. Intraocular Lens Implantation in the Absence of Posterior Capsular Support 333**
  - General Considerations 333
  - Anterior Chamber IOLs 334
  - Posterior Chamber IOLs 336
- 20. Complications of Cataract Surgery and their Management 345**
  - Preoperative Complications 345
  - Operative Complications 346
  - Postoperative Complications 352
