

Contents

<i>Foreword by JS Titiyal</i>	vii
<i>Preface</i>	ix
1. Ocular Structures and their Development	1
• Ocular structures	2
• Development of the eye	5
2. Cornea, Limbus and Sclera	31
• Cornea (anatomical considerations)	32
• Corneal physiology	39
• Limbus	53
• Sclera	60
3. Uvea, Aqueous Humour and Intraocular Pressure	65
• Uvea	66
• Aqueous humour	74
• Intraocular pressure	93
• Ocular rigidity	111
4. The Crystalline Lens	115
• Anatomy of lens	116
• Physiology and biochemistry of lens	124
• Cataractogenesis	135
• Accommodation	146
5. Vitreous Humour	157
• Anatomy of vitreous	158
• Biochemistry and physiology of vitreous	162
6. Retina, Visual Pathway and Physiology of Vision	171
6.1 Anatomy of Retina and Visual Pathway	172
6.2 Physiology of Retina and Vision: General Considerations	204
6.3 Photochemistry of Vision	208
6.4 Neurophysiology of Vision	215
6.5 Electrophysiology of Retina and Visual Pathway	234
6.6 Visual Adaptation	257
6.7 Visual Acuity	270
6.8 Contrast Sensitivity	287
6.9 Colour Vision	297
6.10 Critical Flicker Fusion Frequency	312
6.11 Entoptic and Allied Phenomena	317
6.12 Field of Vision	330

7. The Pupil	351
7.1 Anatomy, Physiology and Pharmacology of Pupil	352
7.2 Abnormalities of Pupil	361
8. Extraocular Muscles and Ocular Motility	383
8.1 Gross Anatomy of Extraocular Muscles	384
8.2 Physiology of Ocular Motility	394
8.3 Supranuclear Control of Eye Movements	409
8.4 Structure and Physiology of Extraocular Muscles	424
9. Physiology of Binocular Vision	433
• Binocular vision	434
• Phylogenetic background and evolution of binocular vision	436
• Psychophysics and sensory aspects of binocular vision	437
• Development of binocular vision	457
• Binocular vision tests	465
10. Conjunctiva, Lacrimal Apparatus and Tear Film	475
• Anatomy of Conjunctiva	476
• Lacrimal apparatus	483
• Tear film	489
11. Eyebrows and Eyelids	515
• Anatomy of eyebrows	516
• Anatomy of the eyelids	518
• Physiology of eyelid movements	531
12. Blood Vessels and Ocular Circulation	539
• Blood vessels	540
• Ocular circulation	551
• Structural characteristics of ocular vessels	551
• Ocular haemodynamics	554
• Ocular tissue fluid	560
• Retinal vascular pulsations	562
13. Orbital Nerves	567
• Oculomotor nerve	568
• Trochlear nerve	579
• Abducent nerve	582
• Trigeminal nerve	586
• Facial nerve	592
• Ocular autonomic nerves	598
14. The Skull, Orbit and Paranasal Sinuses	603
• The skull	604
• The orbit	608
• Paranasal sinuses	622
<i>Index</i>	627
