About the Prof. Chintamani's Comprehensive Surgery videos

Prof. Chintamani's Comprehensive Surgery videos is a complete, well organised collection of video lectures providing pragmatic guidance to the principles and practice of surgery in an enjoyable and engaging way. Information is presented in a clinically relevant format that takes the students through the presenting complaints, clinical examination, etiopathogenesis, making a diagnosis, investigations, evidence-based management, surgical procedures, special intra-operative considerations, post-operative complications and management, recent guidelines relating to the disease and take-home points.

Covering the core surgical knowledge needed to crack any examination in surgery and to become a competent doctor, the videos is a must-have resource for advancing one's surgical expertise and enhancing clinical acumen while it will also be an invaluable companion during the critical run-up to final examinations.

This is an extensive video library of high-quality captioned videos of all the surgical topics from "head to toe", highlighting general approach in each case with theoretical introduction followed by case scenarios and focussed "question and answer" based clinical case discussion.

Accessible on computers, tablets, and mobile phones, the surgical videos makes it convenient for students and residents to continue learning and training themselves despite being on duty. With all the "need to know" information, one can easily understand and better retain all the aspects of surgery in less time through these videos which continues to evolve...

ABOUT THE AUTHOR

He is presently a Professor of Surgery at VMMC and Safdarjung Hospital, New Delhi. He is a fellow of all the four Royal Colleges of UK, and American College of Surgeons. Prof. Chintamani's Comprehensive Surgery videos

1. General Surgery
 - a. Management of Haemorrhage and Haemorrhagic Shock
 - b. Approach to ulcer and swelling
 - c. Wound Management and Dressings
 - d. Perioperative safety
 - e. Diagnostic laparoscopy
2. Head and Neck
 - a. Approach to a case of Parotid swelling
 - b. Clinical Case discussion on Benign Parotid swelling
 - c. Clinical Case discussion on Malignant Parotid swelling
 - d. Approach to a case of oral cavity cancer
 - e. Clinical case discussion on Oral cavity cancer – Buccal mucosa
 - f. Clinical case discussion on Tongue carcinoma
 - g. Algorithmic Approach to Solitary Thyroid Nodule
 - h. Approach to a case of thyroid swelling
 - i. Approach to a case of Malignant Thyroid swelling
 - j. Metastatic Malignant thyroid swelling
 - k. Thyroid cancer – Management of neck nodes
 - l. Clinical Case discussion on Solitary Thyroid Nodule I
 - m. Clinical Case discussion on Solitary Thyroid Nodule II
 - n. Clinical Case discussion on Multinodular goitre
 - o. Clinical Case discussion on Malignant thyroid swelling I
 - p. Clinical Case discussion on Malignant thyroid swelling II
 - q. Approach to a case of metastasis from unknown primary
3. Breast
 - a. Triple assessment (i) I & (ii) II
 - b. Approach to Benign Breast diseases
 - c. Approach to a case of Early Breast cancer
 - d. Clinical Case discussion on Early Breast cancer
 - e. Clinical case discussion on Locally Advanced Breast cancer
 - f. Clinical Case discussion on Metastatic Breast Cancer
 - g. Clinical Case discussion on Phylloids tumor of Breast
 - h. Breast cancer in young women
4. Abdomen
 - a. Acute abdomen – etiopathogenesis, diagnosis and management
 - b. Unexpected encounters during surgery for Acute Abdomen
 - c. ABC of intestinal Obstruction
 - d. Lower Gastrointestinal Haemorrhage
 - e. Hydatid cyst
 - f. ABC of Appendix

- g. Approach to a case of dysphagia
- h. Approach to a case of Abdominal lump
- i. Approach to a case of lump Right hypochondrium
- j. Clinical case discussion on Lump Right hypochondrium
- k. Clinical case discussion on Lump epigastrium
- l. Clinical case discussion on Lump Left hypochondrium
- m. Clinical case discussion on Obstructive jaundice due to benign cause
- n. Clinical case discussion on Obstructive jaundice due to malignant cause
- o. Clinical case discussion on Lumbar lump
- p. Clinical case discussion on Lump Right iliac fossa
- q. Clinical case discussion on Lump Left iliac fossa
- r. Clinical case discussion on Appendicular lump
- s. Resectable Colorectal cancer with liver metastasis

5. Groin

- a. Approach to a case of groin swelling
- b. Inguinal hernia – crux to consensus
- c. Clinical case discussion on Inguinal hernia
- d. Clinical case discussion on Carcinoma penis
- e. Clinical case discussion on scrotal swelling due to testicular malignancy

6. Vascular

- a. Clinical case discussion on Varicose veins
- b. Clinical case discussion on Peripheral vascular disease
- c. Clinical case discussion on Diabetic foot

7. Miscellaneous

- a. Approach to a case of Malignant melanoma
- b. Approach to a case of Marjolin's ulcer
- c. Clinical case discussion on Squamous cell carcinoma
- d. Clinical case discussion on Basal cell carcinoma
